Attachment: Notice of NON-COMPLIANT AMENDMENT (37 CFR 1.121)

Only the corrected sections of the non-compliant amendment document must be resubmitted (in its entirety). In this case, the entire "Amendment to the specification" section of applicants' amendment document filed on Aug. 18, 2008 must be resubmitted. 37 CFR 1.121(h).

The "Amendment to the specification" section filed on Aug. 18, 2008, does not comply with 37 CFR 1.121 for the following reason:

Item C: The amendment to the paragraph at page 1 of the specification, that was filed in the Preliminary amendment on Oct. 21, 2005, does not comply with 37 CFR 1.121 because it tries to replace a paragraph that is not present in the instant specification. For example, this application is the US national stage of international application PCT/JP2004/005506 filed on Apr. 16, 2004, not PCT/JP2004/002753 filed on Mar. 4, 2004, as stated in the amended paragraph filed on Aug. 18, 2008.

37 CFR 1.121(b)(1)(ii) states that "[t]he full text of any replacement paragraph with markings to show all the changes relative to the previous version of the paragraph. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters . . ." (emphasis added).
